21st Century Advanced Technology *... Tomorrow's Dentistry Today!*

Lumineers®

Lumineers, are the light at the end of the tunnel for those who aren't satisfied with their smile. Lumineers (porcelain veneers) are contact lens-thin and are placed over the teeth to correct discolored, chipped or misaligned teeth. They transform your teeth into a naturally beautiful smile that is perfectly suited and tailored to you.

Unlike traditional veneers, there is no painful shaving of your teeth involved, making the entire process reversible and much less invasive and less time consuming. Lumineers can even be placed over existing crown or bridgework without having to replace them.

In some cases, Lumineers can be used to correct dental problems in place of braces, and unlike braces, there are no restrictions on the kinds of food one can eat.

In just 2-3 visits, you can have a custom-made smile that is clinically proven to last over twenty years! Get your perfect smile today!

LUMINEERS[®]

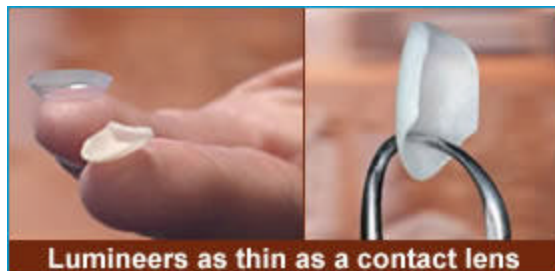

BY CERINATE[®]
