

In this issue of our Newsletter:

Top Ten Reasons to Use PowerLase® AT

Because the most important thing in our practice is you, we are constantly looking for better ways to make your visits to our office more comfortable and provide you better dental care.

We have been using in our practice the most cutting edge dental laser on the market. –the PowerLase® AT by Lares RESEARCH. There are an overwhelming number of benefits to using a dental laser and we are excited to show you all of them.

1. Laser can be used for incisions, excisions, vaporization, ablation and coagulation of soft and hard tissue in the mouth. The procedures include caries removal, cavity preparation and enamel etching.
2. Fewer needles: Our dental laser can be used to perform almost all common cavity preparation procedures without the need for patient anesthesia. We know you don't like

injections, even when it doesn't hurt!

3. No numbness: We know that you prefer not to become numb or leave the dental practice after a procedure numb. And, many of you feel anxious from physiological reactions to commonly used anesthetics. Our laser eliminates this negative side effect in most cases.

4. No drill noise: Cavity preparation involves significant noise we know you dislike it. The sound of a laser is not objectionable.
5. No vibration: no vibration is transmitted into your mouth as the tip of the laser never even needs to contact the tooth!
6. Preservation of healthy tooth structure: In general cavity preparations performed with lasers preserve more healthy tooth structure .
7. Avoids the micro-cracking of healthy enamel associated with dental hand-piece use.
8. Less post operative discomfort: Many laser procedures result in less post operative discomfort.
9. Better Overall Care- Equipped with laser technology, our practice is armed with more and better treatment options than other dentists without a laser,
10. The very best, state of the art care possible for your mouth and teeth.

In the end, dentistry is all about the you. We have made a significant investment in laser technology that will allow us to provide you better and more comfortable dental care.
